

Foundation for Mind-Being Research

Where science meets consciousness...

BioGeometry Foundation Training

Presented by Robert J. Gilbert, Ph.D.

September 28 - October 3, 2019 - Los Altos, CA

Tuition: \$1,195 - Register Early and Save \$100 - Only \$1,095 by August 28

FMBR Members have until September 21 to pay \$1,095 through

FMBR.org/BG-FT-training/

BioGeometry reveals “Nature's Own Design Language”: the hidden powers created by the correct use of shape, color, number, proportion, sound, and motion.

BioGeometry was developed over four decades of intensive original research & new discoveries by Dr. Ibrahim Karim of Cairo, and validated by testing at the Egyptian National Research Centre. BioGeometry clarifies many previously lost methods used in Ancient Egypt, alongside little-known modern European discoveries regarding the living energies which affect all health and consciousness.

The 6-Day BioGeometry Foundation Training Intensive provides the essential skills needed to understand, detect, measure, create, transform, and practically apply the hidden energy qualities which sustain life, health, and spiritual connection.

What You will Learn in the BioGeometry Foundation Training:

- How to Apply “Nature’s Own Design Language” of Shape, Number, Angle, Movement, Sound, and Color for all types of Practical Applications.
- The Energy Science behind the Ancient Egyptian Temple Science and other great traditions.
- BioGeometry tools and techniques for accurately measuring invisible energy qualities from any person, place, or thing.
- Powerful Methods to Energy Balance Living Beings, Homes, Offices, and Locations (these methods are quite different from, yet are also compatible with, those taught in other systems such as Chinese Feng Shui and India Vastu Vidya).
- How to Balance the Energy Quality of Existing Homes and Offices through Shape Modifications.
- How to Create Beneficial Energy Fields through interconnecting and combining Specific Shapes.
- How to use hundreds of different BioSignatures™, proprietary natural energy patterns discovered by Dr. Ibrahim Karim in over thirty years of intensive research.
- How to Test any Person for Energy Imbalances (at any level of physical or subtle body structure).

- The Hidden Energy Applications of the “Golden Proportion.”
- How to use BioSignatures™ to balance the Human Energy Field at multiple levels.
- How to Create “Geometrical Energy Emitters” using Simple Shapes.
- Keys to the designs of the “Sacred Builder’s Guilds” who built the great monuments of the world.
- How to Create Beneficial Energies from Architecture, Interior Design, Landscape Design, or Graphic Design.
- How to Test any Substance for its Strengthening or Weakening Effects on any Person’s Energetic Field.
- BioGeometry methods for transmuting Subtle Energies from one Quality to Another.
- How to Apply the Energy Quality which Balances and Centers all Living Beings and Natural Systems.
- How to Create Beneficial Energies through precise Color and Object Placement (a completely different method than is found in any other system).
- Breakthrough Techniques for Balancing the Energy Qualities of Electro-Magnetic Fields & Geopathic (Harmful Earth Energy) Areas, assisting with Electro-Stress and Environmental Sensitivity issues.
- How to use Number Sequences to Create Powerful Beneficial Energy Qualities.

BioGeometry is a master science which can be applied to any field. BioGeometry has already been shown effective in projects including:

- Holistic Health Research & Applications, Biological Effects (Egyptian National Research Centre; Egyptian National Hepatitis C Research Project)
- Energy Balancing Homes, Offices, and Locations (Projects throughout Europe, North America, and the Middle East)
- Clearing Electro-Stress Problems from Buildings and Entire Cities (applied in Homes and Offices around the World, with Major Projects in Hemberg & Hirschberg Switzerland)
- Improvement of Water Quality (Red Sea Project with Adel Ammar; Emoto Laboratories Imaging Project in Switzerland)
- Enhanced Plant Growth and Quality (Prof. Peter Mols at Wageningen Agricultural University, Holland)

Robert J. Gilbert Ph.D. is the founder and Director of the Vesica Institute for Holistic Studies, in North Carolina. Dr. Gilbert has thousands of students from all over the world who attend his Live and Online trainings. Dr. Gilbert is known for his ability to take in vast amounts of diverse information and present it in a clear, concise, easily understandable form which empowers his students to directly apply powerful techniques.

Dr. Gilbert's background in Vibrational Sciences includes:

- * Being a former instructor in the Nuclear-Biological-Chemical Defense field in the U.S. Marine Corps.
- * Years of academic research into the shared patterns between modern technology and traditional healing systems (including key Sacred Geometry Patterns),
- * Deep research into the almost-forgotten French Vibrational discoveries of the 1930's, which first identified the Universal Vibrational Spectrum that unites all ancient and modern Vibrational Healing systems into a common paradigm,
- * Being the first non-Egyptian instructor in BioGeometry®, which he has taught for 15 years to thousands of students.
- * New Research and Practical Applications of Specific Vibrations in Minerals, Herbs, Oils, Water, Sound, Light, and Vibrational Tools from Different World Cultures.
- * Unifying Vibrational Science with Spiritual Science to accelerate the development of higher consciousness and one's full potential, through activating precise energy centers and circuits in the human body & energy field.
- * A leading figure in Vibrational Methods of Radiesthesia Energy Quality Testing and Application, including being the 2018 Keynote Speaker at the American Society of Dowser's National Conference.
