Where science meets consciousness...

Extraterrestrial Crop Circles

with Jerry Kroth

Jerry Kroth, Ph.D. wonders if all crop circles can be summarily disregarded as fakes and counterfeits after all. He analyzes four mysterious, intricate, and amazing pictograms in this talk and strongly suggests that these actually may be extraterrestrial communications which we have been taught to ignore and disregard. Disinformation propaganda through trickster-hoaxer-croppies has very successfully dissuaded serious minded scientists, academics, and laypersons from taking any of this seriously. Jerry takes it seriously. And the results are absolutely mind-boggling.

This talk is from his 2019 book, *Messages From the Gods: A Scientific Exposition on the Extraterrestrial Origin of Crop Circles* where over 40 mysterious crop circles are decoded not without the aid and assistance of more than 20 scientists from Israel to Japan.

Jerry Kroth, Ph.D., is an Associate Professor Emeritus (ret) in the graduate counseling psychology program at Santa Clara University in California. His teaching involved courses in personality theory, psychotherapy, research methods, and dreamwork. Jerry has an abiding therapeutic interest in working with dreams, personal oracles and the applications of dream theory to psychohistory and collective psychology. His fifteen prior books were in the areas of counseling, psychology, child sexual abuse, learning disorders, metapsychology, transpersonal psychology and research methodology. His academic videos for Youtube have 2.4 million views. <http://collectivepsych.com>
