Nature of Mind-Being

Workshop with Jerry Gin PhD

The term “mind-being” refers to our individual evolution as we learn about consciousness, the nature of the universe, the nature of matter and energy, a greater understanding of spirituality and come to an understanding of who we are and our interconnectedness. The purpose of the workshop is to help those interested in information to accelerate their “mind-being” evolution.

The course covers highlights on concepts concerning consciousness, the evidence of our connectedness, the Source Field or zero point energy field, the nature of matter and energy, subtle energy, healing, out of body experiences, near death experiences, sacred geometry, the fundamental pattern in the universe, earth geometries, pyramid energies, BioGeometry, space-time, quantum physics, gravity, torsion energies, torus structure, vector equilibrium, the theories of Nassim Hameiri/ Walter Russell/ Arthur Young, psychotronics, bioenergies and DNA, spirituality and enlightenment. The workshop will enable one to know about types of information available and how they are connected into a unified whole.

Saturday April 11, 2015, 9:00-5:00PM
Los Altos Masonic Lodge
146 Main St., Los Altos
