## **SUBTLE ENERGY**

Bridging Modern Science and Ancient Wisdom  
Workshop with Dr. Yury Kronn, PhD.

This workshop is devoted to the discussions of the research on subtle energy properties using subtle energy patterns developed during 25 years of the experiments with Vital Force Technology (VFT). The following topics will be covered during the workshop:

- Feasible mechanisms of the subtle energy interactions with inanimate matter and living organisms and methods of delivering the subtle energy patterns to the human body.
- Methods used for the creation of the Vital Force energetic formulas.
- Scientific experiments confirming an effectiveness of subtle energy on different levels: physiological, psychological and mental.
- The experience of the health practitioners with the most popular VFT formulas.
- Effects of environmental energy on healing process and methods of adjusting the environmental conditions to maximize healing effects of any modality. How subtle energy can help to diminish the negative effects of the EM pollution.
- Energetic formulas for support of spiritual practices: meditation, yoga, self-healing and so on.
- The role of subtle energy as a carrier of the “mind effect on matter,” that allows to explain mechanisms of such phenomena as “placebo,” “power of intent,” healing effect of prayers and affirmations. This confirms existence of and demystifies many phenomena considered by the modern science as “superstitions.”
- Devices using energetic methods of the diagnostics and healing: how to discern what is real to expect and what is not.

The participants will be able to experience several VFT energetic formulas during the workshop. Along with the retail line of the energetic formulas, the professional line of the VFT products will be available for the health practitioners.

**Dr. Yury Kronn PhD**, inventor, author developed the comprehensive theory of quantum nonlinear interaction of coherent electromagnetic fields with atoms and molecules, co-authored the definitive book in his field, He has four patents and is currently finishing his new book entitled *Subtle Energy – Using Technology to Harness the Force of the Universe: 30 Years of Research Bridging Modern Science and Ancient Wisdom*. Today, Dr. Kronn is an authority in the science of subtle energy/ vital force and has been involved in subtle energy physics research for the past 30 years. He is transforming the knowledge of subtle energy and modern physics into layman terms with his down-to-earth teaching style making it easier to understand.
