Healing into Consciousness with the Dalian Method
A Revolutionary One-Day Workshop!
with *Mada Eliza Dalian*

"We cannot solve problems by using the same kind of thinking we used when we created them." ~ Albert Einstein

This unique workshop is for those who are ready to permanently say good-bye to their fears and limitations, surrender their ego-personality, and find the true love, compassion, and life purpose that lies deep within their being.

Come and discover a new advanced self-healing technique that will help you to quickly transcend the limitations of your mind and body and expand your consciousness. In this workshop you will:

- Understand what creates your energetic and psychological blockages
- Access and delete unconscious belief patterns that cause your physical and psychological challenges from your body's cellular memory using the revolutionary Dalian Method
- Connect to your inner stillness and clarity and expand your consciousness
- Strengthen your witnessing awareness and learn how to ground your clarity in your entire body
- Learn how to use the Dalian Method in the comfort of your own home to: a) positively transform any situation or life challenge, b) align with your inner knower, and c) manifest your dreams into reality.

You will also receive Mada's "out of the box" individual guidance (which comes from a pure consciousness and a place of no-mind) to know where to focus your self-exploration so that you can make new, responsive, and innovative personal and professional decisions and begin to relate to others and the world in a completely new way. By the end of the workshop you will be well equipped with powerful and practical tools to continue with your inner work of healing into consciousness.

This workshop is ideal for therapists, nurses, doctors, counselors, psychologists, teachers, and anyone who is excited to search within themselves and find their own answers.

Mada Eliza Dalian is the founder of the revolutionary Dalian Method (DM), the author of ***Healing the Body and Awakening Consciousness with the Dalian Method: An Advanced Self-Healing System for a New Humanity*** and ***In Search of the Miraculous: Healing into Consciousness***, and is the creator of several meditation techniques.

After years of meditation and introspection, she was blessed with several profound experiences that ultimately led to a powerful awakening experience at the age of thirty-three. In 1997, combining her experience of enlightenment and extraordinary ability to accurately read the unconscious beliefs imprinted in people's energy and their body's cellular memory that cause pain, illness, and inner unrest, Mada pioneered a new healing system, which helps to quickly and permanently transform pain and suffering into health and self-empowered consciousness. Mada shares her wisdom through Dalian Method seminars, workshops, online courses, retreats, private sessions, and facilitator trainings. **www.MadaDalian.com**

Saturday May 23, 2015, 10AM-5PM
