Practical Spirituality

with Mas Sajady

Spiritual achievements would remain forever illusory without the practical application of these practices into physical reality. While reinforcing the principle of Being-Doing-Having, this workshop will focus on the 'Doing' element to accelerate the transformation of your spiritual knowledge into physical abundance in all areas of your life.

Four one-hour sessions on Health, Wealth, Spirituality and Relationships; each is completed with a lecture, a guided meditation and healing.

Health - Nurturing Your Body with Light
Wealth - Honoring Your Divine Inheritance
Spirituality - Applications of Negativities
Relationships - Soul-mating in 3rd-Dimension

After his second near death experience, Mas Sajady was gifted with intuitive and healing abilities so remarkably potent that he was soon likened to some of the most significant healers in history. Mas works on the core frequency level to help redesign and reprogram your blueprint - materializing fast and tangible results and manifesting abundance in all areas of life. Thousands around the world have transformed their lives after just one or a few sessions with Mas.

Saturday February 28, 2015, 10AM-5:00PM
